

RAJNISH KUMAR

Kolkata, India

+91 9546003537 | kumarrajnishmail@gmail.com | LinkedIn | GitHub | Portfolio

CAREER SUMMARY

B.Tech CSE (AI & ML) student with experience in Full-Stack Web Development, Data Structures & Algorithms, and Machine Learning. Skilled in building and deploying applications using React, Next.js, Firebase, and AI technologies. Passionate about software development, problem-solving, and creating real-world solutions.

EDUCATION

Brainware University, Barasat, West Bengal

Aug 2022 – Aug 2026

Bachelor of Technology - Computer Science Engineering (AI & ML)

CGPA: 8.5

R.L.S.Y College, Aurangabad, Bihar

June 2020 – June 2022

Higher Secondary - PCM

Percentage: 70%

TECHNICAL SKILLS

Languages: C, C++, Python

Web: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS

Database: MySQL, Firebase Firestore

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Tools & Cloud: Git, GitHub, Firebase, Vercel

ML: NLP, Supervised Learning

PROJECTS

CodeSense AI

React, JavaScript, Chrome Extension API, Gemini API

- Developed an AI-powered Chrome extension that helps users solve LeetCode problems without switching between multiple tabs.
- Automatically analyzes problem statements and user code to generate summaries, hints, code reviews, and optimization suggestions using Gemini AI.
- Simplifies the coding workflow by providing AI assistance directly inside the browser, improving learning and problem-solving efficiency.
- Designed a clean and user-friendly interface focused on coding practice and interview preparation.
- Eliminated repetitive copy-paste workflows by enabling contextual AI assistance directly within LeetCode.
- GitHub: Repository

Bharat Darshan

Next.js, React, Firebase, Firestore, Tailwind CSS

- Built and deployed a web platform that showcases the culture, heritage, monuments, festivals, and cuisines of different Indian states.
- Implemented Firebase Authentication and Firestore to manage users and dynamically store cultural content.
- Designed responsive and interactive pages with state-wise navigation, making cultural information easy to explore.
- Developed a scalable structure to organize and present information from multiple states through a unified platform.
- Live Demo: web-bharat-darshan.vercel.app — GitHub: Repository

EXPERIENCE

Autumn Internship Programme

Aug 2025 – Sep 2025

IDEAS TIH, Indian Statistical Institute (ISI), Kolkata

- Completed a 60-hour internship covering Python, Machine Learning, Regression, Classification, and LLM Fundamentals.
- Worked on the project *Fake News Detection and Evaluation*, involving data preprocessing, model evaluation, and reporting.

ACHIEVEMENTS

- Solved 100+ Data Structure & Algorithm problems on LeetCode and GFG, participated in hackathons, and won an Extempore Competition.
- Built and deployed multiple full-stack and AI-powered applications using React, Next.js, Firebase, and AI APIs.
